CHIMNEY

DESCRIPTION

SharkRack Chimney and Flange, the ultimate solution for efficient and organized cable management in server racks. Crafted with precision engineering and designed to meet the demands of modern data centers, the SharkRack Chimney and Flange provide a streamlined pathway for cables, ensuring optimal airflow and minimizing clutter within your server environment.

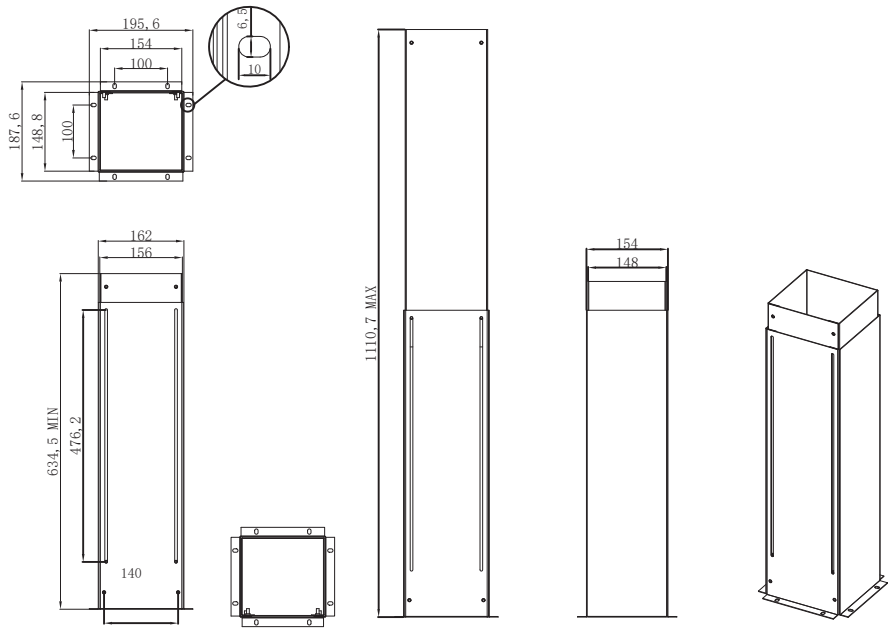

SPECIFICATION

- Made from high quality 1.2mm cold rolled steel, adjustable from 675mm to 1140mm for cable entry management.
- Designed to suit the SHARKRACK "SCAFLANGE" Flange for SHARKRACK Premium and Standard (DB) Ranges of Cabinets.
- The chimney depth is optimized to provide ample space for cable routing while minimizing intrusion into the rack's usable space.
- Powder-coated finish for corrosion resistance and a sleek, professional appearance that blends seamlessly with existing rack infrastructure.
- Adjustable Height from 675mm to 1140mm
